Do you know the Difference?

There's right and wrong in clothing as much as silk: you'll come to know that as you find how truly our dependable make of clothing serves you, and the price.

Quality and workmanship are the two things good clothing hangs by. Aren't you at sea in judging about either? The workmanship is good past holding? the texture of the cloth beyond your knowledge?

We judge for you on those two. As manufacturers, we'll tie our good name to no fabric, until we know what's in it to the last shred. And what we know, you shall know by our ticket; be it wool, or cotton, or cotton and wool.

That we assume fair trading, and we make our methods and principles conform to it. We protect you to the furthest limit of our wisdom.

It's as honestly made as it's true in quality and lowest in price.
